

## **Siraj Sikder Works**

### **Resolutions Granted by the Bureau No.1 In-Charge in 5th Meeting with In-Charge Comrades of the Regions under the Bureau**

**Siraj Sikder**

**The Proletarian Party of East Bengal produced and published the original Bengali document in mid 1973**

**The Communist Party Marxist-Leninist-Maoist Bangladesh translated the document in English and published online via [www.sarbaharapath.com](http://www.sarbaharapath.com) on 9 November 2014. Party slightly edited the translation on 21 April 2017**

- Summation of very much important experiences of party have been properly presented in the Central Committee Statement ‘The Victory of the Proletarian Party of East Bengal is Inevitable’ published on the occasion of the Second Anniversary of the party formation of the Proletarian Party of East Bengal.

All the comrades must make hard effort to materialize the experiences elaborated through that document.

- Meeting is taking a decision to carry movement of Transform Thought, Correct Working Style and Learn from Comrade Siraj Sikder.

It has to be carried throughout the whole Rainy Seasonal Strategic Offensive and massive victory has to be brought.

The meaning of Transform Thought is transforming petit bourgeoisie and other non-proletarian ideas and master proletarian ideas.

The meaning of correcting Working method is correcting petit bourgeoisie and other non-proletarian work-methods and start proletarian work-method.

We have to learn from comrade Siraj Sikder in ideological, political, organizational and military field.

In order to carry movement to change idea and correct working style, we must study manifestations of petit bourgeoisie ideology from 8th communique of the central committee, 2nd article of ideological documents, central committee statement, method of thinking and working style, on contradiction etc. from Chairman Mao Quotation.

In order to carry Movement of learning from comrade Siraj Sikder, we have to study Lal Jhanda Editorial Issue no.1, Lal Jhanda Issue no. 2 & 3, Appendix I, II, Refutation of Clique and Central Committee Statement: Victory is inevitable.

- Changing Idea and Correcting Work Method is the next step of anti-dogmatism Rectification Campaign. In the course of rectification movement, it is possible to change idea and correct work method through eliminating dogmatism and narrow empiricism.

Therefore, anti-dogmatism rectification campaign should be carried properly.

- Oppose narrow empiricism on the eve of anti-dogmatism rectification campaign.

Our experience proves that the narrow empiricist leadership cannot properly carry activities of a region, nor can it develop that to higher level.

Narrow empiricist comrades, with the help of theory, do not sum up experiences, determine laws and work accordingly.

Brainless routinism is governed by rules and regulations and mechanicalism, they cannot improve themselves and their cadres. They give prominence to old among the contradiction between young and old, thus becoming conservative. They think partial and relative truth as eternal and universal. They cannot properly admit guilty and make self-criticism.

They tail behind dogmatism, fear it or avoid it.

- In small scale production system, there is no change for long days, so brain becomes habituated with not changing. It results conservatism.

Conservatism is giving prominence to old in the contradiction between new versus old aspects.

Dynamism is giving prominence to new aspect.

In struggle, contention and competition between new and old aspects, new ones become principal, which cause development and motion and result changes.

Competition and transformation is life. Therefore, we have to give prominence to new in contradiction between new and old aspects, carry experiment and keep dynamism.

Make competition among cadres, sympathizers, supporters, regions and leadership and suspend disqualified ones.

Otherwise, bureaucracy and stagnation will rise.

Some regions are getting good results by applying that.

- As soon as development occurs, division of labor, formality and experiment is needed.

A small stationary shop owner buys commodity by himself/herself, sells and keeps account. But when the same shop transforms into a modern big one, it requires purchase officer, cashier, salesman and manager to manage (These are division of labor). To govern the shop, it requires some rules-regulations and formalities, signature, approval (Formal Letter); experiment for more developed purchase, sell and management.

Therefore, as our organization too develops, it has to add necessary division of labor, formality and experiment. The process of actualizing those has started. We have to continue that.

- The minimum criteria to be member/applicant member of the Proletarian Party of East Bengal is active cadre.
- Without clearing manifestations of petit bourgeoisie ideology, it is not possible to achieve quality of leadership and establish developed human relation.
- The verbal and written directives and advice of higher levels must have to be seriously implemented. If you forget, write it down. Serious losses occurred due to not properly implementing those types advice and directions; some comrades brought set back for own, other comrades and region.
- Give documents and books to cadres, sympathizers and supporters according to their needs and levels; make them read those.

When giving and teaching documents, proceed based on plan and order. Go from primary to higher levels. In-Charge should prepare that plan.

- The propaganda Team by successfully carrying propaganda activities in a city, have made surprise. By adopting necessary caution, the propaganda team may suddenly appear like sparrow, make propaganda and disperse. It is possible to carry such propaganda team in all the cities.
- Cadres, especially wholtime ones of the Proletarian Party of East Bengal are losing physical strength rapidly.

So, they must keep health. They must take Vitamins and Proteins in meal [1].

Taking cigarette is one of reasons of losing working capability and physical losses. Therefore, reduce or leave smoking.

- It was very much timely to form National Liberation Front of East Bengal. We are welcoming that decision.
- Subscription Receipt of National Liberation Front is being submitted.
- Meeting proposes to publish all the communiques of the Proletarian Party of East Bengal collectively.

- The 8th communique of the Proletarian Party of East Bengal is very much important. All the regions must implement all the resolutions of the communique.

**Note**
