How to do a work

— Determine what are the works to do for that. Fix order of the works according to importance

— Find out the obstacles in thinking in doing that work and give ideological teaching to clear that

For example, before a military work, guerrilla/in-charge may be caught by fear and thinking may emerge like dependence of help from outside, inexperience and lack of various things

Provide ideological teaching to clear those. Those are emerged from individual interest, one-sidedness etc

— Take class on investigation, one-sidedness in plan, subjectivism and superficiality

This ideological work must be given prominence because it is idea that controls work.

— Give prominence to ideological work and then accomplish secondary works one after another
